	<p>You are going to create a timeline (in the style of a scientist, yes, that's right). Go back to the reading task - and read one of these texts:</p> <ul style="list-style-type: none">• Digging for Brachiosaurus• Digging for T-Rex• Digging for Triceratops• Digging for Stegosaurus <p>You then need to make some notes, about the discovery of fossils at a particular site. You can then write down the events in order using the organiser. Try to write in your own style, as this will use your higher-level skills.</p>
